Our Commitment to Your Privacy

Our practice is dedicated to maintaining the privacy of your individually identifiable health information (also called protected health information, or PHI). In conducting our business, we will create records regarding you and the treatment and services we provide to you. We are required by law to maintain the confidentiality of health information that identifies you. We are also required by law to provide you with this notice of our legal duties and the privacy practices that we maintain in our practice concerning your PHI. Under applicable law, we must follow the terms of the Notice of Privacy Practices that we have in effect at the time.

The terms of this notice apply to all records containing your PHI that are created or retained by our practice. We reserve the right to revise or amend this Notice of Privacy Practices. Any revision or amendment to this notice will be effective for all of your records that our practice has created or maintained in the past, and for any of your records that we may create or maintain in the future. Our practice will post a copy of our current Notice of Privacy Practices in a visible location our facilities at all times, and you may request a copy of our most current Notice at any time.

For all Notice of Privacy Practices requirements for PHI, reference HIPAA regulations in 45 CFR 164.520(b).

In addition to the privacy protections afforded to all medical records under HIPAA, the confidentiality of substance use disorder records are protected by another federal law referred to as Part 2. Ko-Kwel Wellness Center operates a Part 2 covered program. Our Opioid Treatment Program (OTP) follows the confidentiality protections of 42 CFR Part 2 for substance use disorder-related records. In some circumstances, 42 CFR Part 2 is more restrictive, or protective of your information, than HIPAA. When required, we honor the more protective requirements.

Your Rights

When it comes to your health information, you have certain rights.

This section explains your rights and some of our responsibilities to help you.

Get an electronic or paper copy of your medical record

- You can ask to see or get an electronic or paper copy of your medical record and other health information we have about you. You must submit your request in writing. We will provide a copy or a summary of your health information, usually within 30 days of your request. We may charge a reasonable, cost-based fee.

Ask us to amend your medical record

- You can ask us to amend health information about you that you believe is incorrect or incomplete. To request an amendment, your request must be made in writing. You must provide us with a reason that supports your request for amendment. Our practice may deny your request if you ask us to amend information that is in our opinion: (a) accurate and complete; or (b) not part of the PHI kept by or for the practice; (c) not part of the PHI which you would be permitted to inspect and copy; or (d) not created by our practice, unless the individual or entity that created the information is not available to amend the information.

Request confidential communication

- You can ask us to contact you in a specific way (for example, home or office phone) or to send mail to a different address. We will say “yes” to all reasonable requests.

Get a copy of this privacy notice

- You are entitled to receive a paper copy of our Notice of Privacy Practices, even if you have agreed to receive the notice electronically. We will provide you with a paper copy promptly.

Ask us to limit what we use or share

- You have the right to request a restriction in our use or disclosure of your PHI for treatment, payment, or healthcare operations. Additionally, you have the right to request that we restrict our disclosure of your PHI to only certain individuals involved in your care or the payment for your care such as family members and friends. We are not required to agree to your request, however, if we do agree, we are bound by our agreement except when otherwise required by law, in emergencies, or when the information is necessary to treat you. In order to request a restriction in our use or disclosure of your PHI, you must make your request in writing.

- **Health Information Exchange**

Ko-Kwel Wellness Center may share information that we obtain or create about you with other health care providers or other health care entities, such as your health plan or health insurer, as permitted by law, through Health Information Exchanges (HIEs) in which we participate in. The sharing of your health information is to provide faster access, better coordination of care, and assist providers and public health officials in making more informed decisions. We may share information about you electronically with other organizations. Individual information that requires a signed authorization by you for release through HIE will not be made available to an HIE without your authorization, unless we are required by law to submit information about you. If you do not want information about you to be shared in this way and would like to opt out, please contact the KWC Privacy Officer for the Opt Out form.

Get a list of those with whom we’ve shared information

- All of our patients have the right to request an accounting of disclosures. An accounting of disclosures is a list of certain non-routine disclosures our practice has made of your PHI for purposes not related to treatment, payment or operations. Use of your PHI as part of the routine patient care in our practice is not required to be documented – for example, the doctor sharing information with the nurse; or the billing department using your information to file your insurance claim. In order to obtain an accounting for disclosures, you must submit your request in writing.

-

Choose someone to act for you

- If you have given someone medical power of attorney or if someone is your legal guardian, that person can exercise your rights and make choices about your health information. We will make sure the person has this authority and can act for you before we take any action.

File a complaint if you feel your rights are violated

- If you believe your privacy rights have been violated, you may file a complaint in writing with our practice by contacting our clinical services administrator or you can file a complaint with the U.S. Department of Health and Human Services Office for Civil Rights by sending a letter to 200 Independence Avenue, S.W., Washington, D.C. 20201, calling 1-877-696-6775, or visiting www.hhs.gov/ocr/privacy/hipaa/complaints/.
