Personal Safety with gym exercises

Please watch the video here:

https://www.youtube.com/watch?v=Xo_E02rizss

- Begin any new exercise program gradually (light weights, gradually increase time/repetitions)
- Listen to your body and rest as needed: no “sharp pains”. Some muscle soreness for 1 -3 days after a new exercise is normal
- Drink extra water to stay hydrated and improve recovery

Resistance Machines & Free Weights

Please watch these video resources

How to use resistance machines

<https://www.youtube.com/watch?v=MBM5XN-PE7s>

Proper form with common exercises

<https://www.youtube.com/watch?v=dBJry3tcX0Q&t=91s>

- Pull belly button up and in
- Keep neutral spine (elongate the back and back straight)

Picking the right weight with free weights

<https://www.youtube.com/watch?v=oqPFfyW9AXY>

- Keep the body still, isolate movement to the body part you are strengthening
- Should be able to perform 8-12 repetitions (with some effort/fatigue but not needing to use momentum/body swinging motion to complete)

Exercise recommendations

- ✓ 5-10 minute warmup (walking/biking to gradually increase heart rate and dynamic stretching)
- ✓ 2.5 hours/week of moderately intense aerobic exercise
- ✓ 2 days/week strength training
- ✓ Also include balance and coordination training, stretching
- ✓ 5-10 min cooldown

See optional video Training schedule for assistance in developing your own weekly exercise program:
