

OTP Opioid Treatment Program

What Sets Us Apart?

Medication Assisted Therapy

Evidence-based medication assisted therapy (MAT), utilizing the FDA-approved medication, methadone.

Trauma-Informed and Culturally Sensitive

We understand that not all healing will be linear and we have tailored programs designed to meet your unique needs.

Personal and Patient-Centered

Family support and culturally meaningful groups will be offered to align with your recovery goals.

Frequently Asked Questions

What is the Cost?

We accept major insurances and are committed to helping you recover. Oregon Medicaid covers services at no cost to the patient, and we can assist with your application.

What is Medication Assisted Therapy?

FDA-approved medications are administered along with other therapies to manage withdrawal symptoms.

Who Can Get Treatment?

Native and non-native, over the age of eighteen who are diagnosed with a moderate to severe Opioid Use Disorder (OUD).

How Does Admission Work?

A behavioral health screening initiates the admission process, collaborating with other treatment and healthcare providers.

What is Different About Ko-Kwel?

KWC supports a whole person approach to healthcare in a culturally meaningful environment for the Coquille Indian People and the broader community.
